Proposals for Stationery.

DEPARTMENT OF THE INTERIOR

SEALED PROPOSALS for furnishing such sta-tionery as may be required by this Depart-ment during the fiscal year ending June 30, 1862 will be received until 12 o'clock M., on Monday, the 1st of July next. Those unaccompanied by satisfactory testimonials of ability to fulfil the contract will not be considered, and contracts will only be awarded to established manufac turers of, or dealers in, the articles.
All articles required must be of the best qual-

ity of their kind, and not inferior to the samples which will be exhibited at the Department. Each proposal must be signed by the individ-

ual or firm making it, and must specify but one price for each and every article of the schedule of the class bid for.
The articles, when furnished, must correspond

with the samples, or any of them, if desired, and in no case be inferior in quality to the sample; and they must be delivered without delay when ordered, and must be satisfactory to the Secre-tary; and a failure so to comply with this stipula-tion will be deemed cause for the abrogation of the contract. Articles not named in the schedule are to b

furnished at the option of the Department, at the lowest market prices, and the right is reserved of Bonds, with approved security, must be given by the person or firm obtaining the contract; and, in the event of the refusal or neglect of the contractor to furnish any article or articles named i the contract on the order of the superintenden clerk, the same may be purchased in open mar the same may be purchased in open mar-ket, and the difference in price paid therefor, and the contract price shall be charged to the con-tractor, and deducted in the settlement of his ac-count for the quarter during which such refusal

or neglect may occur. The subjoined schedule specifies, as nearly as can now be done, the amount, quality, and de-scription, of each of the articles likely to be re-

The bids will be canvassed for each of the three classes separately, and contracts for one or more of the classes awarded, as may be deemed

most advantageous to the Department.

Proposals to be addressed to the Su ent Cierk, Department of the Interior, and endorsed, " Proposals for Stationery."

FOR THE CURE OF

DYSPEPSIA. INDIGESTION. Weakness or Debility, Flatulency and Nauses, Loss of Appetite, Nervousness, Liver Com-plainte, Billous Fevers, and all Disease of the Stomach, Liver, and Bowels. PREVENTIVE FOR FEVER AND AGUE,

THESE BITTERS ARE NOT EQUALLED. W. P. & A. W. GREELEY, Proprietors, Boston.

THE OBJECT of all medicine is either to prevent disease, or to assist Nature in restoring the various organs of the body to a healthful action, and that medicine is certainly the best which will perform those offices thoroughly, yet mildly, and without endangering the vital forces of the system, by whose normal condition alone health and strength can be preserved. Most of the Bitters that have heretofore been brought into popplar favor, have only served the purpose of temporarily stimulating or exciting the organs into a condition resembling healthful action, without any remedial effect, and generally followed by a return of the disease, or a prostration of nervous energy more disastrous than though Nature had

been left to take its own course. Dr. Greeley's Bitters are a preparation of the nutritive properties of the grain of the fields in combination with the active principle of many simple alteratives and bitter tonics, and it is a pleasure to the proprietors to state that its usefulness is being generally acknowledged by the largely-increasing consumption in those sections where it is best known, and by the testimony of many eminent physicians, who have not only made trial of it, but continually prescribe the Bitters in those cases for which it is recom-

SONS, Consumptive patients, and others, whose constitutions have become impaired by time, or enfeebled by disease, and in whom the process of digestion does not replace the fat and tissues of the body as fast as they waste, will find these Bitters at once nourishing and strengthening, and happily adapted for their use. The great advantage the Bitters possess over ordinary stimulants usually prescribed in treating lung complaints and kindred diseases, is the fact that they combine many safe and certain healing properties in connection with the best known

Will derive great benefit from it. No unpleasant effect will ever result from taking the Bitters, if the directions are followed. For those who suffer from nervous debility, languor, want of rest, exhaustion, and in all cases of weakness, the

Bitters are not equalled. As an agreeable stomachic, it is much admired; it sharpens the appetite, brightens the intellect, and infuses new life and vigor. No one who uses these Bitters can be subject to an at-

tack of FEVER and AGUE, or DIARRHEA. Of all the ills that afflict men and women, few are so agonizing as Dyspepsia. It is a sort of combination of many diseases. Thanks to science and Dr. GREELEY, a specific has now been obtained. GREELEY'S BOURRON BITTERS take straight tained. GREKLEY'S BOURSON DATE A CUTE. Thou-hold of the disease, and begin a cure. Not a few people, everywhere, complain of Weakness or Debility. This is the gentle hint of nature for a little help in the way of invigoration. The hint should not be neglected. stitch in time saves nine." Get a supply of Gara-LEV's Bounnon Bitters, take them regularly, and our word for it you will feel better, live lon stronger, and think and act with very much more satisfaction. The Bitters are a tonic, and of a nature never before attained in any medicine. It will make the weak strong, the desponding hopeful, the sick well. For any complaint of the Stomach, Liver, or Bowels, there is nothing com-

parable with this medicine. In America, the Liver is the best abused of all organs in the body. It is made the saddle of all other organs. As a consequence, it is often out of order, and not unfrequently nearly inoperative. This need not be; on the contrary, it is quite unnecessary. A little common sense, and a sufficiency of GREELEY'S BOURSON BITTERS, will keep of all other organs. As a consequence, it is often the Liver right, and make man a man, and wo-man, now miserable, quite happy. The Bitters regulate and strengthen the Liver, no less than

purify it.

The increase of Nervous Disorders, at the present day, is one of the most starming indications of the age, or rather, would be, were it not that a most admirable cure had been found. There is not a phase of Nervous disease, whatever it may be, that these Bitters will not act upon favorably, and in the most efficient manner. All ent day, is one of the most alarming indica favorably, and in the most efficient manner. All who are unfortunately afflicted with complaints of this nature, or with Indigestion or eases of the Stomach, should not fail to make use of GREELEY'S BOURSON BITTERS.

Chills and Fever. In many portions of the United States this terrible disease seizes its victims as naturally as water seeks its level. The system in a particular condition invites it. The right medicine to prevent and cure this malady, we unbesitatingly say, is GREELEY'S BOURNON BITTERS. It breaks up the fever, drives it from the system, and will keep it at bay, it taken in accordance with directions on the bottle. The Bitters purify and enrich the blood, and this in return strengthens the constitution. As an agreeable tonic, these Bitters have no equal.
